

**Buhurt League Club Rating for Group Category 12x12 uses the following formula:**

$$((\text{Total Number of Teams} - \text{Place}) + 1) * (\text{Number of Fighters in the Team} + 10) / 10$$

**ATTENTION!** Within a certain Tournament the Rating Points are granted only to the 30 (thirty) Club members, whose Teams showed the best results. If there are more than 30 (thirty) members of the Club participating in a tournament, then the rest of the Club Fighters will not receive any Buhurt League Rating Points.

**ATTENTION!** To be able to receive Buhurt League Rating Points for a certain Team result, Club must have at least two Fighter members within such Team.

**Example 1**

8 Teams total in the Tournament. Three Teams of the Club participating completely formed from the Club Fighters. 60 Fighters in Total. Club Teams get 1<sup>st</sup>, 2<sup>nd</sup> and 3<sup>rd</sup> places.

Calculation:

For the 1<sup>st</sup> place Team:  $((8-1) + 1) * (20 + 10) / 10 = 24$  points (for 20 fighters)

For the 2<sup>nd</sup> place Team:  $((8-2) + 1) * (10 + 10) / 10 = 14$  points (for 10 fighters, as 20 fighters out of 30 have got their points in the 1<sup>st</sup> place)

For the 3<sup>rd</sup> place Team there are no points as all the 30 fighters that can get the points already got them in the Teams with 1<sup>st</sup> and 2<sup>nd</sup> places.

**Example 2**

8 Teams total in the Tournament. 1<sup>st</sup> place is taken by the Team with 20 Fighters from Club A. 2<sup>nd</sup> place is taken by the Team with 10 Fighters from Club B and 10 Fighters from Club C. 3<sup>rd</sup> place is taken by the Team with 19 Fighters from Club D and 1 Fighter from Club E.

1. A (20)
2. B (10) + C(10)
3. D (19) + E(1)

Calculation:

For the 1<sup>st</sup> place Team:  $((8-1) + 1) * (20 + 10) / 10 = 24$  points for Club A (20 fighters)

For the 2<sup>nd</sup> place Team:  $((8-2) + 1) * (10 + 10) / 10 = 14$  points for Club B и  $((8-2) + 1) * (10 + 10) / 10 = 14$  points for Club C (there are 10 Fighters from each of the Clubs in the Team).

For the 3<sup>rd</sup> place Team:  $((8-3) + 1) * (19 + 10) / 10 = 17,4$  points for Club D. Club E doesn't get any points as there are less than 2 Fighters from Club E in the 3<sup>rd</sup> place Team.
